- Guide / Book to Organize & Clean Your Home

I would definitely recommend Ranka's services. She was so easy to work with, very generous and brimming with great ideas for organizing my apartment space in order to make it more liveable and beautiful. Together we conquered more than I thought possible...closets that were crammed so full I was scared to open the doors...a file box that was overflowing to the point of crumpling all the files inside...after we dealt with all the clutter I felt so refreshed and energized. Ranka's attitude was the perfect mix of motivating and gentle, empowering me to deal with things I'd let pile up for years but not making me feel pressured or intimidated. My whole outlook on this home has changed.

Thanks again!  
Diane
