ORGANIZING & STAGING

FROM CHAOS TO ► CLARITY

This month we are profiling Tammy's Mobile Esthetics. I personally use the services of Tammy Enns and so do many of my clients and associates. I can only say WOW after she is done. I feel relaxed, groomed and ready to meet and talk to anybody; it's a great feeling being able to take care of yourself.

Tammy's Mobile Esthetics

At Tammy's Mobile Esthetics, we perform a range of services designed to meet your needs and desires. We offer everything from home pedicure parties, to in-house facials. We have been operating since 2004. We recently moved to Langley; we are located inside The Salon, allowing for one-stop beautifying.

We are a small company with an 'at home' feel.

Our newest addition to our line up of treatments is the microdermabrasion facial treatment. With the use of a high powered hand piece, crystals are used to exfoliate the top layers of the skin, revealing fresh healthy skin. Smoothing the skin's surface and using excellent products to encourage skin cell production. This is an excellent way to smooth out fine lines, and diminish acne scars.

You can call for an appointment at 604-618-3522, or look us up on-line at www.mobile-esthetics.com; our address is 103B 20316 56 Ave Langley.

August Newsletter

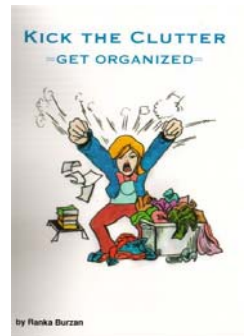

Have you ever wondered how some people are so organized, always on time and appear to be in control of their life, while others struggle to maintain their homes, or their workspace? The people who attend my workshops ask me the very same question: What is different between these two groups of people?

By talking to those that are very organized I discovered a few simple rules the organized people follow.

The Six Habits of Very Organized People

1. They plan their day, schedule appointments and assign enough time for things to be done. They are known for their excellent time management skills. They use their planners, calendars and keep everything in one consistent place and accessible.
2. They have a place for every item in their home so they don't have to guess the location of the scissors or anything else.
3. After using each item they take the time to put things back. They don't have temporary holding places for their papers or clothes.
4. They file instead of pile. They file their papers daily or they schedule the time once a week. Magazines and newspapers are recycled daily or once a week. They don't keep flyers, outdated schedules, or concert tickets; ok I admit to keeping a Tina Turner concert ticket. Hey, if you wait forty years to see her you would keep it too.
5. They don't procrastinate. I found out there are some jobs that organized people don't like but they do them anyway. They don't miss opportunities in their professional or personal life.
6. The organized people only keep the things they like and need. They believe in a simple, creative and productive life. The skills, (not talents) that organized people have are very much learnable and achievable. All of us should sit down and write on a piece of paper the life we would like to live and then Just Do It!

I wish you the best of luck keeping your home organized and clean!

Please visit our web site for our upcoming workshops, books, articles and tools to get you organized.
